

Re: NAB's petition 04-160

Please reject petition 04-160, a request by the NAB asking government to tell me what I can or cannot purchase from a private service.

I am an XM Radio subscriber (3 subs). I am also a DirectTV subscriber, cellphone and internet access purchaser. I pay for all of them. I hold stock in XM and Sirius Radio. They are by far better uses of my time and money than what is provided free from the broadcasters, almost non-stop commercial advertising garbage.

So what will the NAB ask you to do next, tell me I can't stop my car and ask for directions?

James C Smith (KC5VEN)
